1 Executive Summary

El documento D7.5 informa sobre el trabajo realizado en el marco de la Tarea 7.4 – Evaluación de la plataforma de pruebas AGRICORE. Esta tarea representó el punto de partida de las acciones de demostración del proyecto, ya que marcó la puesta en marcha de la plataforma AGRICORE en su conjunto. Sin embargo, algunos componentes de la plataforma AGRICORE ya habían sido desplegados anteriormente (por ejemplo, ARDIT), ya que no influían en la ejecución de los casos de uso. Este documento profundiza en las distintas etapas de la evaluación de la plataforma, desde la preparación del entorno de pruebas hasta el análisis de los resultados obtenidos.
